## Press Release

FOR IMMEDIATE RELEASE

Garland, TX -- **RS Series Sound Dampening Server Rack Enclosure**

This 42u server cabinet is designed for applications that require a quieter environment than the average server room affords. Perfect for conference rooms or areas where employees are working in the same room with servers. In most configurations, you can expect up to 75% decrease in noise over a standard server rack.

Built to EIA 19" rackmount standards, this rack provides multi vendor compatibility including Sun, Compaq, Dell, HP, IBM and Intel.

Each server rack assembly includes:

- 2 sets of "L" shaped infinitely adjustable square hole vertical mounting rails
- Side panels with full sound foam sheet, foam sealing tape between panels and frame
- Vented front and rear doors with full sound foam, two lockable swing handles on each door
- Temperature display includes temp probe on a 3' lead wire
- Solid top panel includes a 6-fan tray utilizing 4" 105 cfm fans with guards. Sealed with foam sealing tape and foam sheet
- Base, low profile casters and leveling feet
- 40 pcs M6 hardware
- Durable powder coat finish, 7 standard colors
- Ships completely assembled

Manufactured in the USA, using American processed steel, these cabinets are built in an ISO 9001-2000 certified facility.
